ADDENDUM

NOVELTIES 2010

Following the successful market introduction in 2006, Lirio will continue to "Create light, control shadow" with a new brand name: Lirio by Philips. This new brand name really emphasizes the ambition of Philips to become the global leader in Consumer Lighting.

The market expertise and the amazing design talent we have are making it possible to give form to lighting in ways that have never been seen before. In 2009 Lirio by Philips will be introducing again over 25 novelties. These novelties underline the pioneering role that Philips and more specifically Lirio by Philips are now playing on the home lighting market.

MAZE

SERIES

Purity of form in a pendant, on the floor or the table. Maze is finished in black with chrome detailing and double-layered, fabric shade for unusual, appealing lighting effects. The floor lamp is adjustable in height too. Practically amazing!
